

speedy marketing with Expand BigFabric

2x3 squares | 1500x2250 mm
 3x3 squares | 2250x2250 mm
 4x3 squares | 3000x2250 mm
 5x3 squares | 3750x2250 mm

Expand BigFabric is probably one of the fastest ways to create the right impression. In less than a minute you can set up a 3x3 picture wall with a surface area of more than five square metres.

The printed fabric is fixed on the structure, even when the display is folded and stored in the transport bag. When the display is set up by fastening the tension hooks mounted on the structure, the fabric is stretched out to a smooth surface.

Expand BigFabric is also available with loop nylon fabric in grey, blue and black. Pictures, posters or even lightweight products can be attached to the fabric using self-adhesive fixing discs.

The Expand BigFabric structure comes with or without fabric covering the ends. The width is between two and five squares, the height is normally three squares, equal to 2250 mm.

Spotlights in different models can be ordered as accessories. If necessary, the structure can be equipped with extra stabilising feet.

Great marketing begins with Teme

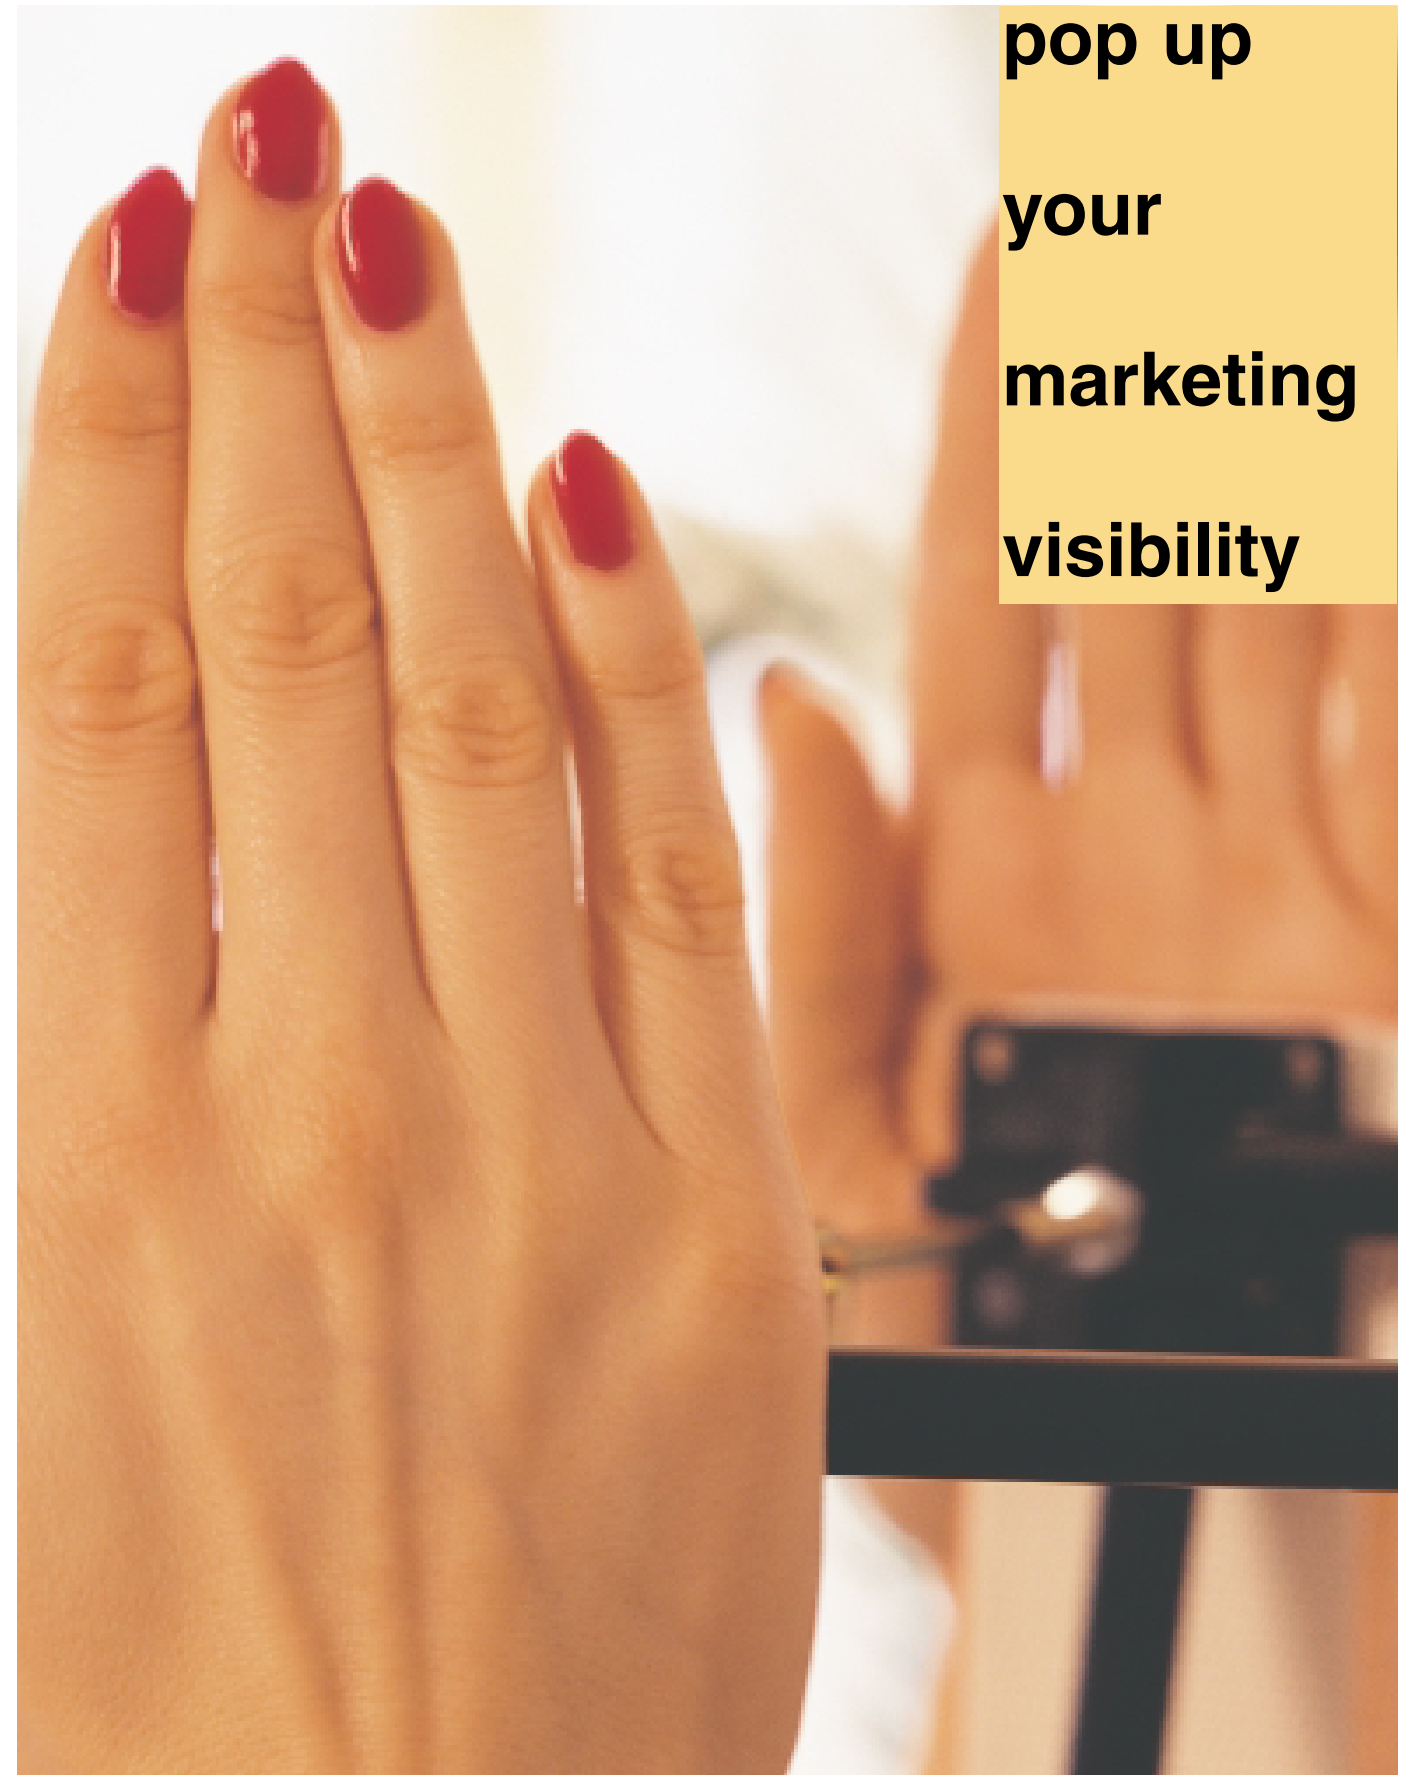

Expand offers a complete range of portable displays. If you would like further information about our products, please contact your nearest Expand dealer. Expand is represented worldwide. You will find addresses and telephone numbers, as well as other useful information, at our website www.expand.se
